

Help your student keep this current school year's skills fresh over the summer!

Enroll in our GRASP Summer Academic Review

GRASP is an academic workbook correspondence program designed for students to reinforce math and reading skills learned during the school year just completed. Students complete nine lessons in math, reading or both over the summer. Each lesson takes about one hour to complete. They mail their answer sheets to Community Education for correcting and receive their scores back in the mail. Students will receive their workbooks in the mail after the end of the current school year.

We recommend you indicate the grade the student is just completing in the 2017-18 school year. This is an opportunity to review the past year's material.

GRASP registration deadline is May 11, 2018. Registration after the deadline will be limited as workbooks may not be available.
